

Press Release Copy

A statewide initiative to offer **free** 2-hour workshops in **Colorado Employment Law for Small Businesses** is currently being presented throughout the state. This educational initiative was formed in partnership with State Government, Chambers of Commerce, business leaders, and Human Resources professional organizations.

There have been many recent changes in state and federal employment law and thousands of Colorado small business owners are at an increased risk of civil rights challenges and potential discrimination claims. The two hour sessions will educate small business owners about best hiring practices and important equal employment opportunity information so owners can prevent unnecessary claims, reduce employee turnover costs, and focus on their business operations instead.

**Frozen Rainbows** is proud to present the following workshops. The owner, Tandy Rackerby SPHR, will facilitate these groups. Her company is a local Human Resources consulting firm that has served small businesses and nonprofit organizations since 1997.

For more information or to schedule your participation go to [www.frozenrainbows.com](http://www.frozenrainbows.com) or email [frozenrainbows@msn.com](mailto:frozenrainbows@msn.com).
